Melih SARAÇ

About

I am an experienced backend developer with solid expertise in *PHP and Laravel*, along with hands-on experience in *database management*, *RESTful API development*, and *payment systems integration*. I have worked on various projects utilizing technologies like *PHP*, *Laravel*, *NodeJS*. Additionally, I emphasize the use of *SOLID principles* and best practices to deliver high-quality, scalable, and secure solutions. I am dedicated to *teamwork*, ensuring the successful completion of every project.

In addition to my technical skills, I am passionate about art, dance, sports, music, photography, and motorcycles, all of which fuel my creativity and enhance my problem-solving abilities.

Skills

PHP

VueJS

ReactJS

JQuery

LLM & AI Assistants

SEO

Debugging Tools

Docker

Redis

Work Experience

Turkticaret.Net Full Time

Jan 2024 - Dec 2025

Backend Developer

Turkticaret.Net is a leading *domain and hosting provider* in Turkey, offering comprehensive digital services including *domain registration*, *hosting solutions*, and *security certificates*.

I developed scalable backend architectures using *PHP* and *SOLID principles* to support high-traffic operations. I optimized *MySQL database* performance by refactoring complex queries and implementing *Redis caching*. I secured *payment gateway* integrations and automated repetitive workflows using *cron jobs* and *queue workers*. Additionally, I integrated *LLM-based AI assistants* to improve customer support efficiency.

Turkticaret.Net Workplace Training

October 2022 - January 2023

Intern

I improved myself further with **HTML, CSS, JavaScript and JQuery**. I also handled the backend with **PHP, SQL**. Additionally I learned fundamentals of **Nodejs** and frameworks like **Laravel** and **Django**. I got familiar with content management systems and **MVC structure**.

Turkticaret.Net Internship

June 2022 - August 2022

Intern

I learned the technologies that make websites work, like **HTML, CSS, JavaScript**. I learned and deployed a website using **JQuery** and **PHP** with **MySQL database**
